FOR IMMEDIATE RELEASE

Chiral Technologies, Inc., Signs Exclusive Distribution Agreement with Cromatec S.A.

October 15, 2007, West Chester, PA – Chiral Technologies Inc., a leading global provider of chiral chromatography columns has announced that it will expand Latin American sales efforts by partnering with exclusive distributors throughout the country.

Effective immediately, Cromatec S.A. will be the official distributor for Chiral Technologies, Inc., in Brazil.

“As the need for chiral chromatography solutions in Brazil is growing quickly, we understood the importance of choosing a company with great market knowledge and a growing customer base. Choosing Cromatec as our Brazilian distributor was an easy decision,” stated Dr. Joseph Barendt, COO of Chiral Technologies, Inc.

Roberto de Souza Cruz, Director, stated, “We are very pleased that Chiral Technologies has chosen to work with us. We believe this cooperation will be most beneficial to all of our chiral chromatography customers.”

In addition to chiral chromatography columns, Chiral Technologies, Inc., also supplies bulk chiral stationary phases and preparative chiral columns for chromatographic resolution of single enantiomer compounds. Located in West Chester, PA (a suburb of Philadelphia), the company operates an Outsourcing Center for Separation of chiral intermediates and APIs in pre-clinical and clinical evaluation. Chiral Technologies, Inc., was established in 1990, and has served the pharmaceutical and other life science industries during this period of rapid growth of chiral pharmaceuticals.

Cromatec S.A. located in Sao Paulo has been in the laboratory instrumentation business since 1994 supplying high quality analytical systems and support services to its clients. Cromatec has a solid reputation with separation scientists throughout Brazil.
